

KIELDER

WATER & FOREST PARK

Your Great Outdoors

DAY TRIPS MUST SEE...

There's so much to pack into your trip it is impossible to see all of the Park in a day but here are your top must sees – the attractions that are too good to miss. Pick and choose whichever fit your timings best!

Kielder Observatory

Throughout the year there are events on at the Observatory – check www.kielderobservatory.org for details. When there are no events on, visitors are still welcome to visit the Observatory and walk around the decking but the interior facilities will be closed.

Osprey Ferry

The ideal way to see Kielder Water in style. Always check the ferry timetable before setting out. You can board the ferry at Leaplish Waterside Park or Tower Knowe Visitor Centre (re-opens April '10).

Lakeside Way

Choose a section to walk, run cycle or ride. See our downloadable Trails Guide for available routes.

Kielder Castle

Kids especially will love the Minotaur maze.

Leaplish Waterside Park

Great for a spot of lunch at the Boat Inn restaurant and bar. There's also a heated pool.

Tower Knowe Visitor Centre (re-opens April '10)
An interactive new exhibition about the history of Kielder Water and everything there is to do in the Park now.

Red squirrel hide

You're almost guaranteed to see a red squirrel – one of the last remaining strongholds in England.

Mirage

Surprising art work twinkling away in the trees.
